FIELD TO FORK

Our seasonal menus celebrate sustainability using local and estate reared produce. By using fresh fruits, vegetables, herbs, and salads grown right in our Walled Kitchen Garden, we ensure our ingredients are not only fresh but also have a minimal carbon footprint, as they travel a very short distance from garden to plate.

In addition to our garden produce, we feature meats reared on the Tatton estate, including venison, lamb, and pork. By sourcing our meats locally, we are reducing the environmental impact of long-distance food transportation.

Our catering team are dedicated to creating dishes that highlight the best of Tatton. By choosing foods with a low carbon footprint, we contribute to a healthier planet and a more sustainable food system.

We invite you to enjoy our thoughtfully crafted dishes and our events team can share the seasonal menu with you prior to your booking.

UNIQUE EXPERIENCES

Our team building experiences are unique to Tatton Park and range from Mansion tours to Longbow at the Old Hall. Please get in touch with our events team who are more than happy to share our additional activity options with you.
